The Service

- No phone lines. No cables.
- Easy installation. Plug to your PC and enjoy the Net.
- Mobile service that you carry with you wherever the service is covered.
- Your account should be recharged after one month or when the traffic corresponding to you plan is reached, whichever comes first.
- If the upload traffic is consumed, the account could remain active with an upload speed of 8Kbps until the end of the month.

Features of Wireless Broadband

- Limitation on consumption according to your Plan.
- No session limitation.

Service Coverage:

Mobi Wireless Broadband services are currently available in selected areas such as **Tripoli**, Saida, Beirut and surroundings, Metn, and Kesrowan. As with any radio system there are places inside the marked coverage areas where the service may not work due to a variety of factors. For example, radio reception can be degraded or non-existent in certain places, particularly large buildings, basements, lifts, underground and car parks. Reception can also be affected by mountains and tunnels.

Warranty & Conditions:

- Hardware cost is payable cash upon delivery. Warranty period for the CPE is 30 days from purchase date.
- A 24 working hours grace period will be awarded to test and return back the wireless CPE in case of no coverage and you will be refunded accordingly.
